Stop building before you test.

Most side hustle ideas do not fail because people are lazy. They fail because nobody tested demand early enough.

This workbook gives you a simple 30-day system for finding real problems, asking real people, making tiny offers, and deciding whether to stop, pivot, or continue.

Inside:

- The 10-Message Test
- The $10 Tiny Offer Test
- The Polite Interest Trap
- The 3-Signal Scorecard
- 30 days of direct action pages
